Adhesive Systems From C.A. Technologies

Double Diaphragm Pumps

C.A. Technologies double diaphragm pumps are the answer for spraying virtually any type of adhesives, including "sheer sensitive" products. They're perfect for single, multi-hand gun and automatic spray systems. Coupled with our standard pulse chamber or optional fluid regulators, the DD pumps will provide pulse free operation. Stainless steel construction, teflon diaphragms and stainless steel balls and seats, these units are rated at 12 gallons per minute at maximum of 100 psi fluid pressure.
