

CAT Pressure Reduced / HVLP

Lightweight Construction

The air cap is constructed of a lightweight aircraft grade aluminum, providing part integrity with less weight to help with sprayer fatigue

Fan Control

The fan control is located at an easy access point on the handle of the spray gun, allowing one handed pattern adjustment

Air Adjustment Valve

The CAT-X includes a built in air adjustment valve right at the handle of the spray gun for quick and care free access

C.A. Technologies is proud to introduce our new CAT-X professional grade automotive spray gun. The CAT-X provides extreme atomization, handle ergonomics, and fluid delivery superior to all the competitive guns on the market today. The CAT-X includes the HVLP air cap and the pressure reduced air cap to meet all the codes and regulations throughout the United States. The CAT-X comes in two distinctive handle designs.
