Superior Spray Systems

From C.A. Technologies

C.A. Technologies superior spray systems for spraying adhesives are available with the **P100G**. The Laminator is the ultimate spray gun designed specifically for glue/adhesive applications of all types. The gun comes standard with all stainless steel fluid passages. The body and air cap are teflon anodized for easy clean-up and longer life.

The **Tomcat** is a general purpose conventional spray gun great for spraying any type of material including adhesives and is priced more for the economical user.

The Laminator

Panther
P100G - 1.8 x 2266T
(other nozzle sizes available)

2.5 gallon tank

P100G-1590

P100G-1590
(specifically designed for
waterbased adhesives)

TOMCAT

TOMCAT
T100C - 1.8 x 2266
(other nozzle sizes available)

5 gallon tank

All guns can be retro-fitted with any size tank and outfitted with 25' of 3/8 fluid hose and 25' of 5/16 air hose. For a wider fan pattern CAT suggests using air cap #21-2266-3.

DD Pumps

C.A. Technologies double diaphragm pumps are the answer for spraying virtually any type of adhesives, including "sheer sensitive" products. They're perfect for single, multi-hand gun and automatic spray systems. Coupled with our standard pulse chamber or optional fluid regulators, the DD pumps will provide pulse free operation. Stainless steel construction, teflon diaphragms and stainless steel balls and seats, these units are rated at 14 gallons per minute at maximum of 100 psi fluid pressure.

5 gal pail mount

Units are available in 5 and 55 gallon cover mounts with optional air agitators or wall and cart mount units with 5 or 55 gallon siphon assemblies. Add Panther gun and hose to complete your C.A. Technologies Superior Spray System for Adhesives.

55 gal pail mount
