- Patented 2 piece nozzle design

FE-Line
LCFM HVLP

"It's HVLP at its Finest"

The new *FE-Line LCFM* HVLP gun is our low CFM lightweight ergonomic spray gun. The FE-Line LCFM's standard setup will be 1.3 x 1090. This setup is designed for use with a low air consumption compressor. The 1090 air cap only uses 6cfm, which enables the FE-Line LCFM to be operated with a 2hp compressor. The FE-Line's lightweight ergonomic design also reduces fatigue and increases mobility.
