

L100CM

MULTICOLOR

Specifically designed to spray Multi Color type paints, the Lynx 100CM is the latest in control and quality. This gun is endorsed by SPII to spray ZOLATONE/POLOMYX for touch up work to achieve seamless finishes. This gun can also be converted to spray full production pressure pot applications. This is the only gun of its kind and quality to get the precise pattern steps you need to achieve.

Multi Color 2.5 Gallon Outfit (Teflon Coated)

OL100C-202

For the painter who needs dependable, rugged equipment that will get the job done this outfit is it. This heavy gage steel tank is TEFLON coated to give a slick, hard finish that cleans up easy.

Match that with the 21-200 internal mix nozzle and the lynx gun from C.A.T. and you have a rig that will give the right finish with precision and control

**Liners - 51-237-10 (10 Pack)*
