Quality Finishing Equipment

Spray Guns Made in the USA

OB/OC14 AAA

Fine Finish Pump Outfit

- 14:1 ratio pump for production fine finish.
- All Stainless steel fluid section.
- Magnetic no stall air motor design.
- Soft spray pattern has minimal over spray and results in excellent transfer efficiency.
- Requires 6 CFM.

Portable Air Assist Airless Unit

C.A. Technologies Cougar and Bobcat spray outfit is now available as a self contained portable unit with 3 HP compressor, 4-gallon air tanks and the 14:1 AAA pump all packed nicely on a sleek compact cart making it the most effective tool for any job and place.

- 3 HP Compressor (100 PSI Max).
- 4 Gallon Air Tank (Twin 2 Gallon) Gives Plenty of Atomizing Air.
- Stainless Steel Fluid Passages.
- 14:1 Ratio Stainless Steel Pump.
- No Stall Air Motor Design.
- Compact Design.
- 100% US Made.
- Requires 6 CFM.

OB14-PC & OC14-PC

C-20

20:1 AAA Unit

- Built for easy "field" repairs.
- All Stainless steel 20:1 ratio pump for higher viscosity materials.
- A durable and dependable pump for continuous operation at 2 GPM.
- Single or multiple gun applications - up to 8 guns with 0.013" tips.
- Requires 6 CFM.
- Please ask or refer to www.spraycat.com for part numbers and pricing.

CPR-FE

CAT Pressure Reduced

- The CPR is the lightweight version of the CPR spray gun series.
- Combines HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Requires 13.5 CFM with 23-1301.
- Requires 11 CFM with 23-2101.

CAT-X Series

CAT-X Hybrid Technology

- The CAT-X provides extreme atomization.
- Extreme fluid delivery.
- HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Incorporates 4 needles/nozzles and 2 air caps.
- Available in 5 unique designs.
- Requires 13.5 CFM with 24-1411.
- Requires 11 CFM with 24-1352.

H2O-CPR Series

CAT Pressure Reduced

- The H2O-CPR Series spray guns are labeled to reduce confusion between solvent and water based units within the shop.
- Combines HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Comes in a kit which incorporates 3 needles/nozzles and 2 air caps.
- Requires 13.5 CFM with 23-1301.
- Requires 11 CFM with 23-2101.

CPR-G

CAT Pressure Reduced

- Combines HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Comes in a kit which incorporates 3 needles/nozzles and 2 air caps.
- The different nozzle sizes are ideal for spraying a wide range of materials.
- Requires 13.5 CFM with 23-1301.
- Requires 11 CFM with 23-2101.

CPR

CAT Pressure Reduced

- The CPR is an all stainless steel pressure feed spray gun.
- Combines HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Comes in a kit which incorporates 3 needles/nozzles and 2 air caps.
- Requires 13.5 CFM with 23-1301.
- Requires 11 CFM with 23-2101.

Economy

Techline T3

Fine Finish HVLP (Economy)

- This HVLP spray gun includes the C.A.T. fine finish series nozzles.
- Fine finish results at an economical price.

CPR-T3

CAT Pressure Reduced (Economy)

- Combines HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Economy version of compliant spray technology.

OT100C-301

Tomcat Outfit

- The Tomcat is a general purpose conventional air spray guns.
- Rugged and designed for production use, these spray guns are perfect for all coatings thick and thin.
- This outfit includes the Tomcat spray gun with a single setup and a 51-301 siphon cup.

Gel Coat Spray Gun

J100C

J100C Gel Coat

- Setup with a 2.8 mm nozzle/needle.
- Ideal for spot repair and applying high viscosity materials.
- Includes a 21-2268 air cap for excellent breakup power to atomize the toughest coatings.
- Stainless steel fluid passages.

Low CFM Spray Guns

CP-J100H

Low CFM Gravity

- The CP-J100H is ideal for portability and use with a small compressor.
- All stainless steel fluid passages.
- Comes in a kit which incorporates 3 needles/nozzles and 2 air caps.
- Requires 6 CFM with 21-1090.
- Requires 10 CFM with 21-1093.

Pressure Cups and Tanks

Pressure Cups & Tanks

Pressure cups and tanks available in 2 quart up to 15 gallon sizes.

2QT Bandit

51-600

2.5 Gallon Tank

51-202

Disposable Ridged Liners

- Semi ridged liners for the 51-600 Bandit 2qt cup.
Part Number: 51-637-12 (12 pack)
- Semi ridged liners for the 51-200 series 2.5 gal tank.
Part Number: 51-261-12 (12 pack)
51-261-60 (60 pack)

CP-FELCFM

CP-FELCFM-303R2

Low CFM & High CFM

- The FELCFM is now offered in our CAT Packs.
- These CAT Packs include 3 needles/nozzles and 2 air caps.
- Having a low CFM and a High CFM air cap allows for more versatility in spray.
- Requires 6 CFM with 21-1090.
- Requires 13 CFM with 21-1094.

TJR

Techline JR. HVLP

- The TJR is an economically priced gravity feed mini gun.
- This TJR kit comes with 3 different needle/nozzle combinations.
- These different combinations can be used in a wide range of coatings and is great for all your touch up needs.
- Requires 4 CFM.
